About Me

I am a motivated and fast-learning Java Full Stack developer who has completed the CodeAcademy Full Stack Java course.

I have a strong foundation in both backend (Java, Spring Boot) and frontend (React, Tailwind CSS) technologies.

Additionally, I have self-acquired skills in creating and executing projects from start to finish. I am quality-oriented and adaptable to new technologies.

Skills

- **Backend:** Java, Spring Boot, REST API, JWT authentication, Maven
- **Frontend:** React, Tailwind CSS, HTML, JavaScript, JSX
- **Databases:** PostgreSQL, SQL
- **Tools & Technologies:** Git, Docker, Maven, Spring Security
- **Methodologies:** Agile, TDD, CI/CD
- **Other Skills:** Fast learner, adaptable to new technologies, team collaboration

Experience

- **Pirk App:** An e-commerce platform using Spring Boot (backend) and React (frontend). I implemented features such as user authentication, product management, and admin functionalities.
- **Anilora:** A flower shop project with a Spring Boot backend and React frontend. I added an artist section and product sales features.
- **Sticky Notes:** A website where users can post comments and notes created as "sticky notes", built with a React frontend and Spring Boot backend.
- **Shopify (Private Projects)**

Education

Java Full Stack (CodeAcademy) — 2024/2025

Acquired comprehensive knowledge and practical skills in both backend and frontend technologies.
